PROFESSIONAL SUMMARY

6+ YEARS EXP

Senior QA Automation Engineer with 6+ years of experience delivering high-quality digital products in FinTech, SaaS, RegTech, Insurance, and Payment platforms. Expert in test strategy design, end-to-end automation (UI & API), performance testing, and CI/CD integration. Proven track record in leading QA processes for regulated systems (CEMAC region), digital payments, and enterprise SaaS platforms. Strong experience working in Agile/Scrum environments with distributed international teams. Results-driven, analytical, and focused on continuous quality improvement.

CORE COMPETENCIES & TECHNICAL SKILLS

Core Competencies :	Test Strategy · E2E Automation · UI & API Testing · Performance Testing · CI/CD Integration · FinTech QA · Agile/Scrum · Defect Lifecycle · Risk-based Testing
Automation Tools :	Cypress · Playwright · Robot Framework
API Testing :	Postman · REST API Testing
Performance & CI/CD :	Gatling · GitLab CI · Jenkins · Docker
Management & Tools :	Xray (JIRA) · ClickUp · Git · Google Workspace

PROFESSIONAL EXPERIENCE

Senior QA Engineer — Seven Common Factors (Seven GPS) (Douala, Cameroon)

Jan 2025 – Present **Current**

Lead QA activities for CEMAC regulatory platforms (ARSy & URBANY—urban and regulatory management systems).

- Designed and implemented automated E2E testing frameworks using Cypress.
- Conducted API and performance testing using Postman and Gatling.
- Reduced regression testing time by 40% through automation implementation.
- Integrated automated test pipelines into GitLab CI/CD.
- Supervised full test cycles: exploratory, regression, performance, and UAT.
- Coordinated with cross-functional regional stakeholders in Agile/Scrum environments.

TECH : `Cypress` `Postman` `Gatling` `GitLab CI/CD` `Xray (JIRA)` `ClickUp`

Freelance QA Automation Engineer — Bainkode Dev (Italy (Remote — Europe))

Jan 2023 – Nov 2024

Delivered automated QA solutions for European SaaS and digital platforms (D4Lean, EZ Trip).

- Developed scalable automation frameworks using Cypress, Playwright, and Robot Framework.
- Increased test coverage by 60% for multiple client projects.
- Designed comprehensive test plans and custom manual testing strategies.
- Managed the defect lifecycle via JIRA/Xray; collaborated with distributed development teams across Europe.

TECH : `Cypress` `Playwright` `Robot Framework` `JIRA / Xray` `SonarQube`

QA Engineer — Seven Common Factors (Seven GPS) (Douala, Cameroon)

Jun 2020 – Jan 2023

QA for multiple SaaS platforms, including digital payments (Mobile Money, Visa, PayPal), insurance, and automotive platforms.

- Executed functional, exploratory, and performance testing.
- Automated critical user flows using Cypress; integrated automation into Jenkins CI pipelines.
- Improved release stability by reducing production defects by 35%.

TECH : Cypress | Postman | Jenkins CI | Docker | Mobile Money | Visa / PayPal

Software Tester Intern — Seven Common Factors (Seven GPS) (Douala, Cameroon)

Dec 2019 – Jun 2020

Designed and executed manual test cases; documented defects and monitored resolution processes via JIRA.

- Participated actively in Scrum ceremonies and sprint planning.
- Established baseline bug reporting templates and test case tracking standards.

TECH : Manual Testing | Test Cases | JIRA | Scrum Ceremonies | Bug Lifecycle

EDUCATION

Full Stack Web Developer
Seven Advanced Academy • Douala, Cameroon
2018 – 2020

Deep immersion in modern software engineering, web architectures, frontend/backend development, and testing methodologies.
